

Prescription Renewal Policy

Our clinic asks to see our patients at least once a year for a physical, both to remain a current patient and to continue renewing prescriptions.

In order to streamline efforts to renew patient prescriptions, our clinic asks that patients call in to request a renewal when it is due.

Due to frequent breakdowns in communication between pharmacies and our office, we ask that patients call in directly to our prescription line at option 2 when needing a renewal.

For more information and our FAQ, please visit olhmc.com.

I have read and understand the Prescription Renewal Policy and that it is my responsibility, and not my pharmacy's, to call the office and request that my prescription be renewed when I am out of refills.
